

SPECIALITY PRODUCT (WSF)

POORNA ADVANCED

Nitrogen		Phosphorus	Potassium
4 %	4.5 %	10.5 %	19 %
Nitrate	Ammoniacal	Amide	Water soluble

- 100% water soluble fertilizer containing all the three major plant nutrients viz., Nitrogen, Phosphorus and Potash in equal proportion with LCO Promoter Technology
- **LCO Promoter Technology**, is natural signaling technology that enhances a plant's nutritional capabilities and interaction between plants and beneficial microbes through LCOs helps plants access more nutrition and drive performance.

Features & Benefits

- Suitable for both foliar spraying and drip irrigation
- All major nutrients are available in a single product in equal proportion along with LCO Signalling
- Activates beneficial microbes in Rhizosphere and promotes healthy root zone
- Enhances nutrient uptake and improves crop resilience

Application Details:

Crops: All crops

Dosage:

Foliar Application: 5-10 g/L Of Water

Fertigation: 1-3 kg /ac (Follow Crop Schedules)
